

MATHEUS GÓES

Vila Velha - Espírito Santo | 27 98894-3591 | matheusvmg@gmail.com

PROFESSIONAL SUMMARY

Software Engineer with over 5 years of experience developing web and mobile applications. I have contributed to large-scale projects for companies such as Claro and GM Financial, working on architecture definition, system modernization, Design Systems, and technical leadership. Strong experience with React, React Native, Node.js, TypeScript, and Swift, with a consistent focus on quality, scalability, and engineering best practices.

CORE COMPETENCIES

SOFTWARE ARCHITECTURE • WEB DEVELOPMENT • MOBILE DEVELOPMENT • SYSTEMS ARCHITECTURE • DESIGN SYSTEM • CLEAN ARCHITECTURE • REST APIS • NODE.JS • REACT • REACT NATIVE • NEXT.JS • NESTJS • TYPESCRIPT • SWIFT • POSTGRESQL • PRISMA • CI/CD • AWS • AGILE DEVELOPMENT

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Accurate Software | São Paulo - SP

Mar 2025 – Jul 2026

Worked on the development and evolution of a large-scale automotive financing platform for GM Financial.

- Developed the application Design System, improving standardization, component reuse, and team productivity.
- Led the upgrade of the platform from Node.js 14 to Node.js 22, modernizing the technology stack and reducing maintenance risks.
- Standardized the project and documented software architecture.
- Led technical refinements and user story definition in collaboration with multidisciplinary teams.
- Refactored and unified legacy modules and updated the build system, improving application performance.

Senior Mobile Software Engineer

Accurate Software | São Paulo - SP

Jan 2025 – Mar 2026

Architected solutions and developed highly scalable applications as part of Platform Engineering.

- Developed reusable boilerplates that significantly reduced the time required to create new mobile projects.
- Actively participated in architectural decisions for the solution.

Senior Mobile Software Engineer

Accurate Software | São Paulo - SP

Nov 2023 – Jan 2025

Worked on the Minha Claro Móvel app, focusing on refactoring and migrating a native application to a cross-platform solution.

- Refactored critical modules, reducing technical debt and improving application performance and maintainability.
- Migrated an iOS native app to a hybrid app using React Native.
- Documented and improved development team processes, including code reviews and onboarding.

iOS Developer

Accurate Software | São Paulo - SP

Nov 2021 – Feb 2024

Developed native iOS solutions for Claro S.A., helping customers access product information and digital technical support through the app.

- Created the iOS library for the company's Design System.
- Developed the Apple Watch application using SwiftUI.
- Led the iOS team with a focus on knowledge transfer, architecture discussions, and project development.
- Supported and improved continuous delivery through development pipelines.

Software Engineer

Accurate Software | São Paulo - SP

Out 2020 – Nov 2021

Developed frontend applications as a software engineer, working with multiple teams on important large-scale projects.

- Developed frontend solutions with Next.js, focusing on performance optimization and SEO support.
- Delivered technical improvements across projects.
- Resolved incidents and bugs, and monitored systems.

EDUCATION

Universidade Vila Velha (UVV)

Associate Degree in Systems Analysis and Development

CEET Vasco Coutinho

Technical Degree in Computer Science

2018 – 2019

CERTIFICATIONS

- Developing Secure Software
- JavaScript
- EFSET English Certificate (B2)
- Inteligência Emocional
- Scrum Fundamentals Certified (SFC)

FEATURED PROJECTS

Mondrian iOS Design System

Developed an iOS Design System library that helps developers build user interfaces for Claro S.A. applications.
